

START
MUNICH

DIGITAL
PRODUCTS

(Mobile) App Developer

Being the leading entrepreneurial student club in Munich, we are keen to become a major hub for digital innovation. As part of our strategic effort, we are giving talented students and young professionals the chance to master their skills by developing impactful projects for STARTMunich's ecosystem. The digital products department subsists of multidisciplinary teams which enables us to perform on a professional level.

If you are driven and resourceful, our high-performance environment provides you the perfect opportunity to develop awesome apps. You will be an essential part of our endeavor to build products our users will love.

We are going to tackle many different projects, all focused on delivering either value to our members, our global network or our local startup community. A key challenge will be the development of a co-founder matching platform, not only for our members but also our international partners. You are also very welcome to bring in your own ideas!

Responsibilities

- Being committed for at least 5-10 hours/week
- Working and communicating with your team
- According to your skills: iOS or Android development

Benefits

- Working on projects with real impact
- Great learning opportunities: strengthen your soft & hard skills
- Being part of a multidisciplinary team
- Priority selection for events with limited capacities, e.g. international trips
